Book Suggestion

(We highly recommend checking your local library for this book, however if you cannot find it-please see link on our "Theme extras" web page to purchase if desired or find another book that showcases St. Patrick's Day)! -We suggest using the same book for two weeks as this really helps children gain reading comprehension of the book!

Song Suggestions:

Leprechauns Are Dancing

Author: unknown

Leprechauns are dancing,
How they love to play.
Running in the fields and
Playing tricks all day!
you will never catch one,
No matter what you do.

They sing and dance and play their games,
And run away from you!

I'm a Little Leprechaun

Author: unknown

I'm a little leprechaun
Dressed in green,
The tiniest man
That you have ever seen.
If you ever catch me, so it's told,
I'll give you my pot of gold.

Fine Motor Activity

Pot of gold

What you need for this activity:

- *Pot of gold page
- *Writing utensil
- *Yellow marker

Directions:

Creating circles are another important step in the prewriting process for children. This activity combines circles with tracing the letters of a vocabulary word.

*Option one-ask your child(ren) to trace the circles above the pot of gold and color in yellow. Then trace the words “pot of gold.”

*Option two- ask your children to make yellow circles in the pot to create their own pot of gold. Then trace the words “pot of gold.”

Science Activity:

Green Milk

What you need for this activity:

- *Whole Milk
- *Green food coloring
- *Shallow bowl
- *Cotton Swab
- *Dish Soap

Directions:

Fill the shallow bowl with milk so that it covers the bottom of the bowl-not very deep.

Put a couple of drops of food coloring on top of the milk.

Have your child(ren) carefully dip the cotton swab into the dish soap-making sure it is covered all the way.

-Ask your child(ren) to predict what will happen when they dip the cotton swab into the milk.

Have your child(ren) carefully touch the top of the milk with the cotton swab.

Observe what happens!

*Explain that this works because milk contains a lot of protein and fat-the dish soap makes these two separate and spread. The green food coloring shows this!
